COLLOIDS AND SURFACES A

Contents of Volume 116

(Abstracted/indexed in: Chemical Abstracts; Current Contents; Physical, Chemical & Earth Sciences; INSPEC; PASCAL/CNRS)

Vol. 116 Nos. 1–2

Special Issue: Wetting and Interfacial Phenomena. A collection of papers presented at the Wetting and Interfacial Phenomena Symposium at the 69th Annual Colloid and Surface Science Symposium, in June 1995, held in Salt Lake City, USA

Drop size dependence of contact angles and line tensions of solid–liquid systems
D. Li (Edmonton, Alta, Canada) 1
Positive line tension as a requirement of stable equilibrium
D. Li and D.J. Steigmann (Edmonton, Alta, Canada) 25
Surfactant self-assembly near contact lines: control of advancing surfactant solutions
B. Frank and S. Garoff (Pittsburgh, PA, USA) 31
The significance and magnitude of the line tension in three-phase (solid–liquid–fluid) systems
J. Drelich (Salt Lake City, UT, USA) 43
Equilibrium contact angles: theory and measurement
A. Marmur (Haifa, Israel) 55
Low-rate dynamic and static contact angles and the determination of solid surface tensions
D.Y. Kwok, R. Lin, M. Mui and A.W. Neumann (Toronto, Ont, Canada) 63
Liquid–fluid contact angle measurements on hydrophilic cellulosic materials
K. Grundke, T. Bogumil, C. Werner, A. Janke, K. Pöschel and H.-J. Jacobasch (Dresden, Germany) 79
Studies on the wetting behaviour of polymer melts on solid surfaces using the Wilhelmy balance method
K. Grundke, P. Uhlmann, T. Gietzelt, B. Redlich and H.-J. Jacobasch (Dresden, Germany) 93
Self-assembled monolayers of alkanethiols on copper provide corrosion resistance in aqueous environments
G. Kane Jennings and P.E. Laibinis (Cambridge, MA, USA) 105
Experimental studies on the parametrization of liquid spreading and dynamic contact angles
Q. Chen, E. Ramé and S. Garoff (Pittsburgh, PA, USA) 115
Wetting characteristics of newly developed water-repellent material
G. Yamauchi, J.D. Miller (Salt Lake City, UT, USA), H. Saito, K. Takai, T. Ueda, H. Takazawa, H. Yamamoto and S. Nislhi (Tokyo, Japan) 125
Spreading of oil droplets on silicon oxide surfaces with parallel v-shaped channels
S. Gerdes and G. Ström (Stockholm, Sweden) 135
Determination of equilibrium surface energy of adsorbed polyvinyl alcohol layers in water at 25C
D.T. Nguyen (Jacksonville, FL, USA) 145
Simultaneous adsorption of poly(N-vinyl-2-pyrrolidone) and hydrocarbon/fluorocarbon surfactant from their binary mixtures on hydrophilic/hydrophobic silica
H. Otsuka, K. Esumi (Tokyo, Japan), T.A. Ring, J.-T. Li and K.D. Caldwell (Salt Lake City, UT, USA) 161
An investigation of the compression rate dependence on the surface pressure–surface area isotherm for a dipalmitoyl phosphatidylcholine monolayer at the air/water interface
A. Jyoti, R.M. Prokop (Toronto, Ont., Canada), J. Li, D. Vollhardt (Berlin, Germany), D.Y. Kwok (Toronto, Ont., Canada), R. Miller, H. Möhwald (Berlin, Germany) and A.W. Neumann (Toronto, Ont., Canada) 173
Surface tension response to area changes using axisymmetric drop shape analysis
S.S. Susnar, P. Chen, O.I. del Rio and A.W. Neumann (Toronto, Ont., Canada) 181
Foam-like patterns in myristyl alcohol monolayers
S. Siegel and D. Vollhardt (Berlin, Germany) 195

Complexation properties of calixarenes in Langmuir films at the water–air interface
P.L. Nostro (Florence, Italy), A. Casnati (Parma, Italy), L. Bossoletti, L. Dei and P. Baglioni (Florence, Italy) 203
Bitumen spreading and formation of thin bitumen films at a water surface
J. Drelich, D. Leliński and J.D. Miller (Salt Lake, City, UT, USA) 211

Vol. 163 No. 3

Performance and chemical stability of a new class of ethoxylated sulfate surfactants in a subsurface remediation application
S.A. Smith, B.-J. Shiau, J.H. Harwell, J.F. Scamehorn and D.A. Sabatini (Norman, OK, USA) 225
SIMS and XPS study of the adsorption of sulfide collectors on pyroxene: a case for inadvert metal in activation
D.R. Nagaraj and J.S. Brinen (Stamford, CT, USA) 241
Short-range pressures between lipid bilayer membranes
T.J. McIntosh and S.A. Simon (Durham, NC, USA) 251
The influence of metal ions on polyelectrolyte titration
U. Sjödin and L. Ödberg (Stockholm, Sweden) 269
Catalytic activity of silica gel surface modified by transition metal–aminosilane complexes in the decomposition of hydrogen peroxide
A.H. Gemeay (Tanta, Egypt) 277
Adsorption energy distribution functions
L.E. Cascarini de Torre and E.J. Bottani (La Plata, Argentina) 285
Phase behaviour of lecithin–water–alcohol–triacylglycerol mixtures
M.E. Leser, W.C. van Evert and W.G.M. Agterof (Vlaardingen, The Netherlands) 293
Refinement of Rayleigh's equation for calculation of surface tension of a liquid from its capillary rise height
V.A. Prokhorov (St. Petersburg, Russia) 309
